Idea description

Title:	Free access to sports resources of territorial communities for teambuilding and establishing contacts with locals
Idea objective	The aim of the activity is to increase the productivity and creativity of SME staff to improve relations with residents by the location of the company to expand the access of SMEs to labour resources and improve communications with representatives of local public institutions. Company employees can access local sports grounds in the evenings after work or during weekends. Usually, at this time, public organisations, for example, schools or other organisations, do not use sports grounds.
Sharing process (max 1000 characters)	Implementation of the action requires the following steps: <ul style="list-style-type: none"> - evaluate the possibility of providing public spaces of sports centres for classes and competitions by SME employees (legal, organisational, security, image and other aspects), - preparation of the list of available sports facilities and the conditions of access to them, - dissemination of information about sports events with the participation of SME staff.
Restrictions/rules (law, skills, time, other)	This initiative has no legal restrictions, as sports facilities are usually available to people who live and work in the area. However, of course, it needs to be coordinated with the schedule of other sports events and to ensure the safety of the participants.
Procedures (if applicable)	No special procedures are required, but the SME needs to conclude an agreement or memorandum on employee access to sports facilities of public institutions
Costs for public institutions (if applicable)	As the time of use of sports facilities increases, public institutions may have higher utility costs for lighting, water, heat and other similar costs.
Expected result (if possible)	Joint sports activities also contribute to a better understanding of local problems and how businesses can help the local community
