Idea description

Title:	Creation of a list of vacant premises that can be provided for SMEs
Idea objective	Small businesses have different needs in terms of premises for conducting their activities. The most typical are the needs for premises for the office, for communication with clients, for the storage of goods, for the repair of equipment, for holding various events, for trade, etc. Certain premises are needed for permanent use; others are used by the business temporarily. The main idea of this initiative is to create a list of vacant premises that public institutions can provide for business use. For this list to correspond to the actual situation, it is advisable to create an Internet resource based on such a list, in which changes to this list will be displayed. and also provide business access to information about vacant premises.
Sharing process (max 1000 characters)	The implementation of this initiative requires specific actions on the part of the city authorities: - analyse the needs of local businesses in vacant premises - analyse the availability of vacancies in public institutions that local businesses could use - discuss with businesses and public institutions the structure of the list of vacant premises and the procedures for updating the list data and accessing this information - ensure the process of updating data in the list of premises and tools for SME access to information
Restrictions/rules (law, skills, time, other)	Implementing this action requires qualifications to determine the structure of the list and communication with public institutions and businesses.
Procedures (if applicable)	It is necessary to consider the use of vacant premises of public institutions by businesses.
Costs for public institutions (if applicable)	The cost of organising work on creating a list (working hours).
Expected result (if possible)	Costs of creating and maintaining digital tools to access the list
